## TOUGH. RUGGED. VERSATILE.

The ReechCraft Bronco is a rugged, versatile, and all-terrain scaffold, perfect for commercial and residential needs. Because of its innovative design, the Bronco all-terrain scaffold is kicking up a lot of dust in the construction industry.

### **STABLE ON ANY TERRAIN**

- Legs adjust to accommodate uneven and difficult ground conditions
- Level platform height from 3 to 5 ft\* for a portable workstation
- Easily work from 0 to 12 ft off the ground

### **VERSATILE DESIGN**

- Made with aircraft-grade aluminum
- Each pair easily supports up to 600 lbs
- Extra wide frame for easy plank access

### **EXTREMELY PORTABLE**

- Frame folds flat for easy storage
- Each Bronco weighs 16 lbs
- Features an integrated carrying handle

\*Based on a 5 in. thick platform.

### **>> DID YOU KNOW?**

The extremely versatile Bronco is the perfect scaffold for all your commercial and residential needs. With independently adjustable legs, the Bronco makes a large, stable workstation in any location.

# » BRONCO SPECIFICATIONS

The ultimate in safety, versatility, and strength, the Bronco is the one and only all-terrain scaffold. This tough, three-legged scaffold is ideal for interior and exterior applications with uneven and difficult ground conditions. The extra-wide frame (up to 42 inch base spread) and tapered tripod provide unmatched stability and easy plank access. The Bronco weighs only 16 pounds and folds flat for easy storage and transport. No matter the project—siding, roofing, painting, windows, or masonry work—the Bronco will keep you stable on any terrain.

Extended Height	54 in.
Adjustment Increments	1.5 in.
Weight	16 lbs

**Note:** Specifications are for one Bronco only and are subject to change without notice.

# BENEFITS + FEATURES

## TAPERED TRIPOD

The tapered tripod design provides a stable base for a platform up to 24 inches with easy climbing access.

## EXTRA-WIDE FRAME

The extra-wide tripod frame creates a base spread of up to 42 inches for the utmost in stability, even in tight places.

## HEAVY-DUTY SPREADER

The rigid, triangular design locks the legs into position and makes for an integrated carrying handle.

## NON-SKID FEET

Each Bronco features durable, non-skid rubber feet for all-surface traction.

## ADJUSTABLE LEGS WITH TWISTLOCK™

The independent telescopic legs adjust to any terrain to form a safe, level platform. Simply PUSH the solid steel locking pin, TWIST and PULL the legs, then LOCK into position.
